<b>Total number of check boxes ticked:</b>					<b>7</b>

**Details of employment**

- works on the aircraft or aircraft component – mechanics on cabin and interior equipment
- works according English-language documentation only when the mechanic fully understands the content and meaning of the documentation. He is obliged to consult and clarify any problem in the interpretation of English-language documentation before the work with his supervisor, or his authorized person;
- confirms maintenance records, next to the confirmation box of the work

He is responsible person in his profession and provides his good skill and knowledge.

I would recommend him for future employment in the aviation.

This is to certify that the named person was involved in aircraft/aircraft components maintenance experience in EASA Part 145 approved organization for all the period of employment.

**Training received from the contracting organization**
